THE PROCESS CONTINUES

The past couple months we have begun the process of obtaining all the necessary documents needed to apply for our visas. We, currently, are waiting on a copy of Dominique's birth certificate, so that we can continue this process, as well as preparing the necessary paperwork to apply for our letter of invitation into the country. Pray as this process continues, so that we can apply for visas in February.

TEXAS FELLOWSHIP MEETING

In preparation, for the Texas Fellowship Meeting, we discovered that we only have 14 Sundays left to fill with bookings before we make our move to Italy! We found a way to display this information at the meeting and made some contacts that we hope and pray will reduce the number of Sundays left to book.

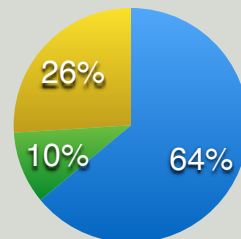

Going into this meeting our goal was mainly to continue to make contact with Pastors, but God had something else for us. Throughout the meeting, God really spoke to us about leadership, vision, and strategies to accomplish our God given vision. Phil Hopper said, "Vision without strategy is just a daydream," and, "We need a vision that demands divine intervention and leaves us in a state of desperation."

This information was given to us at the perfect time. We were recently asked to provide such information in order to receive our Letter of Invitation into Italy. Once again we have seen God's timing is perfect and with purpose.
