

THE PETHTELS

Scott | Dominique | Isabella | Aria

Pethtel News

- ✦ This past April Dominique's mom was able to visit for the first time. There is something special about being able to show your parents where you live, work, and call home. Isabella and Aria couldn't wait to show Grammy their city.
- ✦ Our move is coming along nicely. We have most of our apartment in boxes waiting for September .

Prayer Request

- ✦ God would show us the next man to be trained to take over the church
- ✦ Our family, as we adjust back to the USA and for Scott's medical issues
- ✦ We would be 100% funded before returning to the field at the end of August

When a Kitchen Isn't Just a Kitchen

God has answered our prayers and we are moving into a new apartment in September! As we have been preparing to move we have had to sell some things, such as the entire kitchen including the sink, cabinets, electrical breakers, oven, etc. You may remember our current apartment was a shell when we moved in and we had to install everything. While thinking through the removal of a complete kitchen God laid on our hearts a couple in our church who has been struggling to start a business, which has caused financial struggles for them. Chloe is a christian, but Marco isn't and has not had a good experience with "church". When we approached Chloe to discuss if they could use the kitchen she started to cry. She told us that they had needed a kitchen, but had to recently decide if they should buy kitchen or a bed for their daughter as they couldn't do both. We prayed and decided that we would give them the kitchen. A few weeks later Marco came over to start removing the cabinets and appliances. I was able to use this time to talk with Marco and clearly give him the Gospel when he asked me, "Why did you think of me." Although I am sure Marco has heard the Gospel before I am not sure if he has ever felt the Gospel is such a manner. Please continue to pray for Marco and Chloe.

Summer Furlough

This summer we are back in the states on a short furlough. Along with reporting to many of our current supporters I am set to see the doctor to find out why my knee has been swollen for 6 months, as well as have a possible hernia surgery. Despite these doctor visits we will be traveling and presenting the need of Italy to potential new ministry partners as well. Unfortunately time doesn't allow for us to get to all of our current partners, but know we are encouraged by you every step of the way.
